Republicans on our standard bearers in the coming campaign. Though Bristow

Editors Intelligencer

I congratulate you and all other good Republicans ow our standard beares at the coming campalyn. Though Bristow was our fast chice? Hayes was our second, and the nonlination will insure us a certain victory in November. You will remember saying some time ago that if Bristow was not noninated, Governor flayes would be. So you see you didn't miss your guess much after all.

And now a word about the big show still going on here. It merits a decided success, but I think the managers should lower the price of admission to the people on Saturdays to 20 cents, as it would permit thousands who have only joint enough money to live on, to yisit the Exposition perhaps, several timesduring its contumence, and this do then good as matter, of recreation and addication to them and their children.

It seems to me that there has been great in the West Virginia building. There are thousands of visitors to the building and how the last achieved so much reputation throughout the country. The manufacturers, in not having our nails exhibited here in the West Virginia building. There are thousands of visitors to the building when the country. The manufacturers should send some nails on immediately and have them advantageously brought use your exertions will the Nall men order to make them see this matter in the light of their best interests.

Some of your clizens come on here to do up, the exhibition in one or two days, and go home without really learning much of importance. To my mind it to public attention here. I trust you will use your exertions will the Nall men order to make them see this matter in the light of their best interests.

Some of your clizens come on here to do up, the exhibition in one or two days, and go home without really learning much of importance. To my mind it to public attention here. I come the probabilities. The sword of investigation.

Washington, and the proposed in the probabilities. The sword of investigation, which have the proposed in the propo journment of Congress is now among the probabilities. The sword of investigation has lost its edge with the nomination of Hayes, and could only be turned against the party generally by the development of further, and, as yet, undiscovered corruption in the government. But to this the answer is made that the people have condoned with the party for what Belknapism crept into the administration, and lay the fault upon the administration, and not 1pon the party, which latter starts afresh with a new and unsullied candidate for President. Under these circumstances the spirit of investigation shows signs of Bagging, and, with the heated term, and the St. Louis nomination made, may abandon the work altogether. BUTTER retails at 124 cents per pound in Harrisville; eggs, 10 cents per dozen, and, 15 cents per pound; potatoes, 30 cents per bushel; corn, 50 cents, and flour \$7 50 per barrel. At these prices, no one should suffer for provisions, Attente County Ganette.

OUR MOUNDSVILLE LETTER. MOUNDSVILLE, June 19, 1876.

Editors of the Intelligencer:

A great many things have transpired in Moundaville since I last wrote, though some of them should not be written perhaps. I will not therefore note any of those things the telling of which would be of doubtful propriety, but concern myself with the plans straight forward events as they are taking place among us.

Yesterday there was preaching at the M. E. and Presbyterian Churches, and the different Sabbath schools were largely attended. Rev. W. C. Wilson, the former pastor of the M. E. Church, now stationed at Clifton, preached for us to a very large congregation. Every foot of the

large congregation. Every foot of the Church was crowded. There being no service at the other churches. The members all came to hear Brother Wilson, for when with us he was well liked by every-body. No doubt he fait honored by the congregation that gathered to hear him. His family are with him and they are all in good health. He reports his charge in a very prosperons condition. He has been to Philadelphia on a visit to the Centennia.

a very prosperous condition of the has been to Philadelphis on a visit to the Centennial.

Rev. J. G. Armstrong, of your city preached at the Episcopal Church on Friday evening. I was not able to be present to hear his, but heard his sermon spoken of in the highest terms.

The work on the Court House, which has been suspended for about a week, will be resumed again to-day.

The Agricultural Works will in about two weeks finish their 400 machines, at which time they will suspend operations, for some time at least.

As the Fourth approaches it becomes more and more apparent that we will have the time of the season. You may have a good time in Wheeling, but it cannot compare with ours, else why so many Wheeling people will be with us. There will be a meeting of all the committees this prening to perfect the arrangements already nearly completed. We wish to have it to be a day long to be remembered, and to have it so all that is necessary is to have one and all use their best endeavors to make it such. This is the only Centennial Fourth that any of us may be permitted to celebrate, so it behoves us to make the most of it.

The Democrats complain that things generally conceded by all that he must be the next President. He was not our choice, but we will cheffully acquience in the Convention's choice, as we hope all good Republicaff's everywhere will do. It is surely a strong ticket and one which will harmonize every discordant element in the party.

I suppose it is for the best or it would not have been done, but it seems to me that the soone our State ticket is nominated the better it will be for the party. If we wish to carry the State or expectage is the soon of the state of the party if we wish to carry the state or expectage. to carry it, why not give our candidate time to thoroughly canvas? This defeate Goff two years ago. But perhaps a short active, canvas is intended. It surely should be an active one, if successful.

The Republican party can carry the State this fall and it will if a judicious

WE understand that Judge Hoffman, of Gladstone on Religious Thought Mr. Gladstone contributes an article to the June number of The Contemporary Re-view on the "Courses of Religious Thought," which is to be followed by another investigating thesprings in which another investigating taesprings in which they have their origin. He does not inform us in the present article whether he has undertaken this work with any practical object or not, and the installment of it now before us reads rather like one of the original property. is spoken of as the Democratic candidate from that Senatorial district.

The Moundaville Gazete (Democratic) is gratified to be able to say that Col. Ben Wilson's health is such that he will be able to make a vigorous canvass. It also says that he has claims on the party for a re-election "that cannot and should not be disregarded." This is a warning to the Hon. John Hanson to keep out of Col. Ben's road.

The Ritchie County Gazette publishes a statement from the Secretary of the Pennsboro and Harrisville narrow gague road showing that the total coat of its 9 miles was \$28,090 35, which includes everything. The earnings from the 1st of December 1875 to the 1st of June 76 were \$4,203 44, or about \$400 50 per month. Its net carnings are about \$130 per month. Its net carnings are about \$130
